

Facebook & Instagram — Campaign Setup Guide

Ready to Launch. Not Activated.

Budget: \$9/day | Objective: Lead Generation | Market: United States (National) | Date: March 2026

01 CAMPAIGN ARCHITECTURE

Structure: **1 Campaign** → **1 Ad Set** → **3 Ads (Phase 1)**. Budget optimization: ABO (Ad Set Budget Optimization). Reason: at \$9/day CBO does not have enough budget to optimize across multiple ad sets. Keep all budget in one ad set to give the algorithm maximum signal.

LEVEL	NAME	SETTING	VALUE
Campaign	rendimension_meta_leadgen_developers_20260318	Objective	Lead Generation
Campaign		Budget Type	ABO — Ad Set Level
Campaign		Special Category	None
Ad Set	rendimension_meta_developers-us_video_v01	Daily Budget	\$9.00 USD
Ad Set		Schedule	Run continuously — no end date
Ad Set		Optimization Goal	Leads
Ad Set		Attribution	7-day click / 1-day view
Ad Set		Placements	Advantage+ (let FB optimize)
Ad	rendimension_meta_competitor_video_A	Format	Single Video
Ad	rendimension_meta_sellbefore_video_A	Format	Single Video
Ad	rendimension_meta_riskit_video_A	Format	Single Video

NOTE: Phase 1 launches with 3 videos (one per hook). After Day 7 analysis, the losing ad is paused and hook variants replace it.

02 AUDIENCE TARGETING

Primary Audience — Developer Dave

SETTING	VALUE	REASON
---------	-------	--------

Location	United States — National	Hugo's market is all US, not just Miami
Age	32 to 65	Developers and VPs rarely under 32
Gender	All	No restriction needed
Language	English	Primary; Spanish variant added in Phase 3
Detailed Targeting	Real estate development	Direct audience match
	Real estate investing	Adjacent high-intent audience
	Commercial real estate	Retail chains, shopping centers
	Property development	Core developer identity
	Construction management	Decision makers in build phase
	Luxury real estate	Hospitality and high-end residential
	Houzz	Architecture/design intent signal
Exclude	Residential homeowners	Avoid B2C noise
Audience Size Target	500K to 2M	Enough for \$9/day to learn fast
Detailed Targeting Expansion	OFF	Keep targeting tight at this budget

Placement Settings

PLACEMENT	FORMAT	PRIORITY	NOTE
Instagram Feed	9:16 vertical + 1:1 square	HIGH	Best for visual products like archviz
Facebook Feed	9:16 vertical + 1:1 square	HIGH	Widest reach for B2B developers
Instagram Reels	9:16 vertical video	MEDIUM	Cheapest CPM — good for video ads
Facebook Reels	9:16 vertical video	MEDIUM	Growing placement, low competition
Stories	9:16 vertical	LOW	Good for retargeting later
Audience Network	Any	OFF	Disable — low quality traffic
Messenger	Any	OFF	Not relevant for this audience

RECOMMENDATION: Select 'Advantage+ Placements' and let Facebook optimize. At \$9/day the algorithm needs flexibility to find the cheapest quality impressions.

03 ADS CONFIGURATION

Each ad uses the same ad set targeting. What changes between ads: the video creative, the hook, and the UTM content tag. Do NOT change the CTA or headline between ads in Phase 1 — we are testing hooks, not CTAs.

AD NAME	VIDEO FILE	HOOK	LAUNCH ORDER	HEADLINE	CTA BUTTON
rendimension_meta_competitor_video_A	Video 3 — Your Competitor	Fear of loss	FIRST (Week 1)	See Your Project in 3D	Get Quote
rendimension_meta_sellbefore_video_A	Video 1 — Sell Before You Build	Opportunity	SECOND (Week 3)	See Your Project in 3D	Get Quote
rendimension_meta_riskit_video_A	Video 2 — See It Before You Risk It	Risk reduction	THIRD (Week 5)	See Your Project in 3D	Get Quote

Ad Copy (Primary Text — same for all 3 ads in Phase 1)

Developers using 3D visualization pre-sell 3X faster. At Rendimension, we create cinematic photorealistic 3D visualizations of your project before construction begins. Delivered in 5 business days. Click below to see your project in 3D.

NOTE: The primary text is the same for all 3 ads so we isolate the video hook as the only variable being tested.

04 UTM PARAMETERS

Apply these UTM parameters to the website URL field in each ad. If using Lead Gen Forms (recommended), add them to the form thank-you redirect URL instead.

AD	FULL UTM URL
Video 3 — Competitor	https://rendimension.com?utm_source=meta&utm_medium=paid-social&utm_campaign=rendimension_leadgen_developers&utm_content=competitor_video_A&utm_term=realestate-developers-us
Video 1 — Sell Before	https://rendimension.com?utm_source=meta&utm_medium=paid-social&utm_campaign=rendimension_leadgen_developers&utm_content=sellbefore_video_A&utm_term=realestate-developers-us
Video 2 — Risk It	https://rendimension.com?utm_source=meta&utm_medium=paid-social&utm_campaign=rendimension_leadgen_developers&utm_content=riskit_video_A&utm_term=realestate-developers-us

05 LEAD GEN FORM — FACEBOOK NATIVE

Use Facebook's native Lead Gen Form (Instant Form) — NOT a link to your website. Native forms convert 3x to 5x better at low budgets because users never leave Facebook. The lead data goes directly to your Facebook Lead Center.

Form Configuration

SETTING	VALUE
Form Type	Higher Intent (not More Volume) — filters out low-quality leads
Form Name	rendimension_leadgen_developers_v01
Language	English
Intro Headline	See Your Project in 3D — Free Private Consultation

Intro Image	Use best render from your portfolio (photorealistic building exterior)
Intro Description	We create cinematic 3D visualizations for developers. See your project before you break ground. Delivered in 5 business days.

06 LAUNCH PHASES AND BUDGET PLAN

PHASE	WEEKS	BUDGET/DAY	ADS RUNNING	ACTION
Phase 1 — Test Hooks	1 to 2	\$9	3 videos (one per hook)	Hands off. Let algorithm learn. No changes.
Phase 2 — Optimize	3 to 4	\$9	Winner hook + 1 variant	Pause loser. Launch hook variant of winner.
Phase 3 — Scale	5 to 6	\$18 to \$27	2 winning hooks + Spanish version	Increase budget 20% every 3 to 4 days.
Phase 4 — Expand	7+	\$50+	Add images + carousels	Add static image ads. Test new audiences.

CRITICAL RULE: Do NOT touch the campaign during Days 1 to 3. Facebook needs time to exit the learning phase. Any change resets the algorithm and wastes budget.

07 PRE-LAUNCH CHECKLIST

08 KPI TARGETS AND TRAFFIC LIGHTS

METRIC	GREEN TARGET	YELLOW MONITOR	RED ACTION REQUIRED
CTR (all)	Above 2.0%	1.0% to 2.0%	Below 1.0% — pause ad
CPC	Below \$1.50	\$1.50 to \$3.00	Above \$3.00 — review creative
CPL (Cost Per Lead)	Below \$80	\$80 to \$120	Above \$150 — pause campaign
Leads per week	3 or more	1 to 2	Zero — immediate creative review
Video Play Rate (3s)	Above 30%	15% to 30%	Below 15% — hook failing
Form Completion Rate	Above 60%	40% to 60%	Below 40% — simplify form
Frequency	Below 2.0	2.0 to 3.5	Above 4.0 — refresh creative

Check these metrics every 7 days minimum. Do NOT check daily — early data is noisy and leads to bad decisions.
